GAME DESCRIPTION

You're caught in a time warp! Earn your wings against ruthless enemy aircraft from the dawn of aviation to the superjet age and finally to the future! TIME PILOT™ takes you through the decades as you face enemies from five time periods:

1910: Battle the ghosts of yesteryear's dogfighting biplanes! Their bullets are crude, but deadly all the same. Fend them off, then face the mighty Dirigible.

1940: Time warp ahead 30 years! Face squadrons of swooping monoplanes. Evade their swift attack, then eliminate the heavy bomber to move on to the next era — and more action!

1970: The enemy is more sophisticated now! Eliminate swarms of helicopters. Dodge their enemy missiles. The more choppers you down, the closer you come to success. But face the double-prop helicopter before pushing forward in time once again.

1983: It's the jet age. Swirling waves of superjets home in on your Timeship. Protect yourself, aim well, and hope you can make it. But you're not safe yet. There's the battle yet to come!

2001: You've reached the final and future battle! Duel against flying saucers in deep space. With speed, maneuverability, and deadly missiles, these are awesome opponents. But victory is not yours until you've downed the giant saucer carrier! Are you up to this challenge?

ALWAYS MAKE SURE THE GAME SYSTEM IS OFF BEFORE INSERTING OR REMOVING A CARTRIDGE.

USING YOUR CONTROLS

1. Control Stick: Your Timeship turns to face the direction in which you press the Control Stick. The Timeship stops turning when it reaches that direction. If you release the Control Stick, the Timeship stops turning immediately.

2. Play/Action Button: Press and release the Play/Action Button to make your Timeship fire bullets in the direction it faces. Tap a button to fire a short burst.

HERE'S HOW TO PLAY

Enter the time warp!

Hit the dirigible.

As you eliminate enemy planes, the Enemies Remaining line decreases. When the line disappears, the Dirigible flies into view. Your Timeship must hit the dirigible to complete this stage of battle.
It's 1940!

Your Timeship breaks out of the time warp and moves on. The enemy biplanes are left behind. Now monoplanes menace your air space. Shoot them to shrink the Enemies Remaining line. But your battle's not over yet. There's the heavy bomber to eliminate! Hit it to move on to the next era — and more action!

The chopper 70's.

Made it through the time warp? Look what you face now: a swarm of buzzing helicopters! Maneuverable, unpredictable, each helicopter threatens your Timeship. Watch out for the enemy missiles — or you won't make it to '83! Don't forget the double-prop chopper. Hit it to break out of the time trap.
Meet your match!

They're the superjets of 1983! High-speed jets battle your Timeship. Be quick! Keep firing. Dodge! Those missiles are more deadly than ever — and fast. Eliminate the big jet bomber to move on to the final battle!

Fate of the future.

The year is 2001. Flying saucers are determined to eliminate your Timeship. Survive their onslaught, then attack the giant saucer carrier and rid the universe of these perilous foes!

Starting over

The adventure ends when all your Timeships are eliminated. Press GAME RESET to replay the game option you have just played. To choose another challenge, reset the Difficulty Switches, then press the GAME RESET to start playing.
